

A child wearing a helmet and a brown shirt is riding a scooter on a paved path. The path curves through a modern residential development with multi-story apartment buildings in the background. There are some trees and landscaping along the path. The overall scene is dimly lit, suggesting dusk or dawn.

1 Preliminary

1.1 Economic Development Act

The *Economic Development Act 2012* (the Act)¹ establishes the Minister for Economic Development Queensland (MEDQ) as a corporation sole to exercise the functions and powers of the Act.

The main purpose of the Act² is to facilitate economic development, development for community purposes, the provision of diverse housing including social and affordable housing and provision of premises for commercial or industrial uses. One of the ways the Act³ seeks to achieve this is by providing for a streamlined planning and development framework for particular parts of the state declared as priority development areas (PDAs).

The Act⁴ provides for the MEDQ to fix charges and other terms for the provision of infrastructure in PDAs.

This document is the Development Charges and Offset Plan (DCOP) made by the MEDQ⁵ for the Fitzgibbon PDA.

1.2 Fitzgibbon Priority Development Area

The Fitzgibbon PDA was declared by regulation⁶ on 25 July 2008 under the Urban Land Development Act 2007 (since repealed and replaced with the *Economic Development Act 2012*).

The Fitzgibbon PDA Development Scheme (development scheme) is applicable to all land within the boundaries of the PDA and PDA-associated land. The Fitzgibbon PDA covers 295 hectares in the northern suburbs of Fitzgibbon, Carseldine, Bald Hills, Taigum and Deagon. It is located 12 kilometres from the Brisbane CBD.

The boundaries of the PDA are shown on Map 1.

1.3 Application of the Development Charges and Offset Plan

The Fitzgibbon PDA DCOP is applicable to all development on land and water within the boundaries of the PDA.

The DCOP became effective on 1 July 2022

¹ See section 8 of the Act.

² See section 3 of the Act.

³ See section 4 of the Act.

⁴ See section 10 of the Act.

⁵ See section 10 of the Act.

⁶ See section 37 of the Act.

1.4 Purpose of the DCOP

The DCOP is a policy document which is intended to provide guidance to the MEDQ on infrastructure matters for a development application and states the following for the PDA:

- i. the Development Charge for the provision of Trunk Infrastructure for the following networks:
 - a. water supply
 - b. sewerage
 - c. stormwater
 - d. transport
 - e. parks and community facilities
- ii. the Trunk Infrastructure plans and schedules of works
- iii. matters relevant to calculating a Credit, Infrastructure Offset or Infrastructure Refund for the provision of Trunk Infrastructure.

Development Charges will contribute to funding the cost of Trunk Infrastructure that is proposed to service development within PDA.

On and from the date the DCOP takes effect, the Infrastructure Funding Framework has no application for the Fitzgibbon PDA. Additionally, to the extent of any inconsistency, the DCOP prevails over other EDQ instruments concerning charges, credits, offsets and refunds.

Map 1: PDA boundary

2 Development Charges

2.1 Charge categories

This DCOP categorises the uses defined in the PDA development scheme stated in column 2, into the charge categories stated in column 1, Table 1.

Where a use is not listed in column 2 of Table 1 (including where a use is unknown because the PDA development application does not specify a proposed use or where a use is undefined in the PDA development scheme), the MEDQ will determine the appropriate charge category to apply based on an assessment of the use and the demand placed upon the trunk Infrastructure networks by the development.

Table 1: Charge categories and uses

Column 1 Charge category	Column 2 Use type under the PDA development scheme
Residential development	
Residential	Caretaker's accommodation, Dual occupancy, Dwelling house, Multiple dwelling, Dwelling unit
Accommodation (long-term)	Community residence, Retirement facility, Rooming accommodation (boarding house, hostel, monastery), Non-resident workforce accommodation, Rural workers' accommodation
Accommodation (short-term)	Hotel (residential component), Short-term accommodation
Non-residential development	
Commercial (bulk goods)	Agricultural supplies store, Bulk landscape supplies, Garden centre, Hardware and trade supplies, Outdoor sales, Showroom
Commercial (retail)	Adult store, Food and drink outlet, Service industry, Service station, Shop, Shopping centre
Commercial (office)	Office, Sales office
Education facility	Childcare centre, Community care centre, Educational establishment
Entertainment	Hotel (non-residential component), Nightclub Entertainment facility,
Essential services	Emergency services, Health care services, Residential care facility, Veterinary services
Indoor sport and recreational facility	Indoor sport and recreation
Industry	Low impact industry, Research and technology industry, Warehouse,
Places of assembly	Club, Community use, Function facility, Funeral parlour, Place of worship
Other uses	Air services, Animal keeping, Car wash, Crematorium, Environment facility Undefined use
Minor uses	Home-based business, Landing, Market, Park, Roadside stall, Substation, Telecommunications facility, Temporary use

2.2 Base Development Charge rates for reconfiguring a lot or material change of use

The Base Development Charge Rates are:

- i. Reconfiguring a lot - the Base Development Charge Rates for reconfiguring a lot are set out in Table 2. Section 2.3 details the method for calculating the applicable Development Charge Rates for reconfiguring a lot.
- ii. Material change of use - the Base Development Charge Rates for a material change of use are set out in Table 3 and Table 4. Section 2.3 details the method for calculating the applicable Development Charge Rates for material change of use.

Table 2: Base Development Charge Rates for reconfiguring a lot (FY 2023/24)

Demand unit	Infrastructure charge rates (\$ per lot created)
Management Lot	0
Lot other than Management Lot	31,936.99

Table 3: Base Development Charge Rates for material change of use - Residential use (FY 2023/24)

Residential use	Demand unit	Infrastructure charge rates (\$ per demand unit)
Residential charge category		
Dwelling house	1 or 2 bedroom dwelling	22,812.13
	3 or more bedroom dwelling	31,936.99
Dual occupancy	1 or 2 bedroom dwelling	22,812.13
	3 or more bedroom dwelling	31,936.99
Caretaker's accommodation	1 or 2 bedroom dwelling	22,812.13
	3 or more bedroom dwelling	31,936.99
Multiple dwelling	1 or 2 bedroom dwelling	22,812.13
	3 or more bedroom dwelling	31,936.99
Dwelling unit	1 or 2 bedroom dwelling	22,812.13
	3 or more bedroom dwelling	31,936.99
Accommodation (short-term) charge category		
Hotel (residential component)	Suite with 1 or 2 bedrooms	11,406.01
	Suite with 3 or more bedrooms	15,968.44
	Bedroom that is not part of a suite	11,406.01
Short-term accommodation	Suite with 1 or 2 bedrooms	11,406.01
	Suite with 3 or more bedrooms	15,968.44
	Bedroom that is not part of a suite	11,406.01
Accommodation (long-term) charge category		
Community residence	Suite with 1 or 2 bedrooms	22,812.13
	Suite with 3 or more bedrooms	31,936.99
	Bedroom that is not part of a suite	22,812.13

Hostel	Suite with 1 or 2 bedrooms	22,812.13
	Suite with 3 or more bedrooms	31,936.99
	Bedroom that is not part of a suite	22,812.13
Retirement facility	Suite with 1 or 2 bedrooms	22,812.13
	Suite with 3 or more bedrooms	31,936.99
	Bedroom that is not part of a suite	22,812.13
Rooming accommodation	Suite with 1 or 2 bedrooms	22,812.13
	Suite with 3 or more bedrooms	31,936.99
	Bedroom that is not part of a suite	22,812.13

Table 4: Base Development Charge Rates for material change of use – Non-residential use (FY 2023/24)

Non-residential use	Infrastructure charge rates for Trunk Infrastructure networks other than stormwater (\$ per demand unit of m² of GFA)	Infrastructure charge rates for stormwater Trunk Infrastructure network (\$ per demand unit of m² of impervious area)
Places of assembly charge category		
Function facility	79.88	11.41
Club	79.88	11.41
Community use	79.88	11.41
Funeral parlour	79.88	11.41
Place of worship	79.88	11.41
Commercial (bulk goods) charge category		
Agricultural supplies store	159.70	11.41
Bulk landscape supplies	159.70	11.41
Garden centre	159.70	11.41
Hardware and trade supplies	159.70	11.41
Outdoor sales	159.70	11.41
Showroom	159.70	11.41
Commercial (retail) charge category		
Adult store	205.29	11.41
Food and drink outlet	205.29	11.41
Service industry	205.29	11.41
Service station	205.29	11.41
Shop	205.29	11.41
Shopping centre	205.29	11.41
Commercial (office) charge category		
Office	159.70	11.41
Sales office	159.70	11.41

Non-residential use	Infrastructure charge rates for Trunk Infrastructure networks other than stormwater (\$ per demand unit of m ² of GFA)	Infrastructure charge rates for stormwater Trunk Infrastructure network (\$ per demand unit of m ² of impervious area)
Educational facility charge category		
Childcare centre	159.70	11.41
Community care centre	159.70	11.41
Educational establishment	159.70	11.41
Entertainment charge category		
Hotel (non-residential component)	228.12	11.41
Nightclub entertainment facility	228.12	11.41
Theatre	228.12	11.41
Resort complex	228.12	11.41
Indoor sport and recreational facility charge category		
Indoor sport and recreation facility	228.12 (Non Court Areas)	11.41
	22.77 (Court Areas)	11.41
Industry charge category		
Low impact industry	57.06	11.41
Research and technology industry	57.06	11.41
Warehouse	57.06	11.41
Essential services charge category		
Emergency services	159.70	11.41
Health care services	159.70	11.41
Residential care facility	159.70	11.41
Veterinary services	159.70	11.41
Minor uses charge category		
Uses in the minor uses charge category	The Development Charge rate is that which is applicable to the charge category that the MEDQ decides should apply for the use having regard to the use and the demand placed upon the Trunk Infrastructure networks by the use.	
Other uses charge category		
Uses in the other uses charge category	The Development Charge rate is that which is applicable to the charge category that the MEDQ decides should apply for the use having regard to the use and the demand placed upon the Trunk Infrastructure networks by the use.	

2.3 Calculating a Development Charge

The Development Charge Rate for each relevant use type is equal to the sum of the indexed Base Development Charge Rates for the use type. Base Development Charge Rates are indexed in accordance with section 4.

A Development Charge will be calculated by:

- i. multiplying the proposed development demand by the Development Charge rate; and then
- ii. subtracting from it the applicable Credit calculated in accordance with section 2.4, as follows:

$$IC = (DD \times ICR) - C$$

Where:

DC is the Base Development Charge, which cannot be less than zero.

DD is the development demand represented by the demand unit (i.e. a number/quantity of lots, dwellings, GFA and/or impervious area).

DCR is the applicable Development Charge rate.

C is the value of any applicable Credit, represented in dollars.

2.4 Credits for Development Charges

A Credit may be applied to the calculation of a Development Charge.

A Credit for a Development Charge is an amount which is the greater of the following:

- i. the charge for each existing lot, calculated in accordance with section 2.3
- ii. if the premises are subject to an Existing Lawful Use and is serviced by Trunk Infrastructure, the charge for the Existing Lawful Use calculated in accordance with section 2.3, or
- iii. if the premises were subject to a Previous Lawful Use and is serviced by Trunk Infrastructure, the charge for the Previous Lawful Use calculated in accordance with section 2.3.

However, a Credit is not available:

- i. where the Existing Lawful Use or Previous Lawful Use commenced after the declaration of the PDA as accepted development, and charges were not levied.
- ii. where the Existing Lawful Use or Previous Lawful Use was an interim use approved by the MEDQ and charges were not levied, or
- iii. where a lot subdivision was a Management Lot subdivision and charges were not levied.

An applicant seeking a Credit must provide evidence of the existing lawful use, Previous Lawful Use, creation of the lot or payment of charges for accepted development or an interim use.

The sum of the Credits cannot exceed the sum of the Development Charges for the approved development.

2.5 Development exempt from Development Charges

Development Charges do not apply to development undertaken by the State, or another entity representing the State, for the following purposes:

- i. education
- ii. emergency services, and
- iii. health care services.

2.6 Deferral of Development Charges

On application, the MEDQ may defer Development Charges deemed payable for not-for-profit or charitable organisations to assist with the delivery of these facilities within the PDA.

Not-for-profit or charitable organisations eligible for deferred Development Charges are defined as per the *Charities Act 2013* (Cth) and are registered with the Australian Charities and Not-for-profits Commission, unless the applicant can provide proof that the organisation provides a public benefit to the community, which is not limited to members of the organisation. The deferral for not-for-profit or charitable organisations applies to non-residential development only.

Deferrals are limited to 50 per cent of the Development Charges payable for a PDA development approval - capped to a maximum of \$40,000 per application.

Not-for-profit or charitable organisations may, at any time after the PDA development approval has been issued, but before the infrastructure charge becomes payable, apply for a deferral against the Development Charges.

If the MEDQ determines that an organisation meets the eligibility requirements, an infrastructure agreement may be prepared⁷ to defer the payment of Development Charges.

If an infrastructure agreement is proposed, it may include clauses which stipulate that the Development Charges will become due and payable if:

- i. the development or organisation no longer provides a public benefit
- ii. the development ceases being used by the not-for profit or charitable organisation, or
- iii. the property is transferred or otherwise disposed of.

⁷ The requirements set out in section 2.6 are not intended to be an exclusive list of requirements. The MEDQ retains ultimate discretion as to the terms and execution of any infrastructure agreement.

2.7 Payment of Development Charges

A Development Charge is payable at the following time:

- i. If the Development Charge applies for development that is reconfiguring a lot, when the MEDQ approves a plan for the reconfiguration.
- ii. If the Development Charge applies for development that is a material change of use, prior to the earlier of:
 - a. when the MEDQ approves a building format plan; or
 - b. when the change happens; or
 - c. when the certificate of classification or final inspection certificate is issued for a building or structure.

2.8 Development Charges for interim uses

Where a PDA development approval includes a use, which is deemed to be an interim use, Development Charges will be applied in accordance with the following principles:

- i. where the approval is for an interim use that has a duration of less than six years, charges will not be levied
- ii. where the approval is for an interim use that has a duration period of more than six years, charges are applicable in accordance with section 2.3
- iii. where the approval is an extension of an interim use duration period and the total duration period of the use is more than six years, charges are applicable in accordance with section 2.3

3 Infrastructure offsets and refunds

3.1 Application of an offset

This section applies where an applicant:

- i. is required to, in accordance with a PDA development approved, provide a Land Contribution or Works Contribution
- ii. requests the value of that Infrastructure Contribution be offset against a Development Charges (an Infrastructure Offset), and/or
- iii. requests a refund for the value of that Infrastructure Contribution that exceeds the Development Charges (an Infrastructure Refund).

An applicant may lodge an application with the MEDQ for the following types of offset claims:

- i. Provisional Offset (section 3.4), or
- ii. Final Offset (section 3.5).

3.2 Works Contribution – cost estimate

The value of a Works Contribution is established in Section 5.1. An Infrastructure Offset claim for a Works Contribution may include the following:

- i. the construction cost for the works
- ii. construction on-costs for the work which do not exceed a total of 15 per cent of the construction cost for the following:
 - a. detailed design for the work including but not limited to RPEQ certification, survey, geotechnical, architectural, environmental and landscape design
 - b. project management fees including but not limited to procurement and contract administration
 - c. portable long service leave payment for a construction contract for the work, and
 - d. The payment of 2% of the total value of the construction works at the final offset assessment stage, to recover EDQ's infrastructure planning costs for the PDA. The applicant is entitled to claim an offset of that 2% against the final offset project owner's costs.
- iii. for a provisional offset for a Works Contribution, the identified contingency percentage for the relevant infrastructure item within Section 5.1.

An Infrastructure Offset claim for a Works Contribution may not include the cost of the following:

- i. master planning of the Work Contribution or for the development

- ii. carrying out temporary or sacrificial infrastructure works unless it is an agreed part of the Works Contribution, and it can be demonstrated that temporary or sacrificial works provide a more cost-effective solution than delivery of the ultimate design
- iii. relocation of utilities, unless specifically identified as a cost factor within the Infrastructure Planning Background Report (IPBR) and constructed in the location required for the ultimate infrastructure alignment. Unidentified relocation of works may be considered trunk at the sole discretion of MEDQ
- iv. carrying out other infrastructure works which is not part of the agreed Works Contribution
- v. decommissioning, removal and rehabilitation of infrastructure identified in ii) and iii), unless it is an agreed part of the Works Contribution
- vi. additional costs for the Works Contribution that have not been previously agreed with EDQ
- vii. part of the Works Contribution provided by another party
- viii. the cost of GST to the extent that GST is payable, and an input tax credit can be claimed for the work
- ix. a cost attributable directly or indirectly to the failure of an applicant or a person engaged by the applicant to perform and fulfil a relevant approval for the work
- x. a cost caused or contributed to by a negligent or wilful act or omission by the applicant or a person engaged by the applicant
- xi. a cost of carrying out non-trunk infrastructure works which is only made necessary by the development and does not contribute to the function of the Works Contribution
- xii. a cost of carrying out Trunk Infrastructure works which relates to another infrastructure network
- xiii. the cost involved in a redesign, where that redesign is a result of failing by the applicant or a person engaged by the applicant
- xiv. a cost of carrying out infrastructure works in excess of the standard of service for the network of development infrastructure in the infrastructure plan, and
- xv. a cost of maintaining an infrastructure asset where required by a condition of approval, unless specifically identified as an inclusion within the IPBR.

3.3 Land Contribution – cost estimate

The value of a Land Contribution is established in Section 5.1.

Where the cost in Section 5.1 cannot be applied, to determine the value of a Land Contribution, the MEDQ will attribute the Valuer-General's annual valuations (rate per m² basis) (in accordance with the Land Valuation Act 2010) which is current at the time the offset is to be granted.

The Valuer General's annual valuations will be used in circumstances where the lot which is affected by the Land Contribution requirement is vacant, under redevelopment or if there are structures on the land, the structures are deemed likely to be unaffected by the infrastructure project. If the provision of land is likely to affect existing structures, a valuation process will be undertaken for the site which may result in a different rate than the Valuer-General's annual valuation.

3.4 Provisional offset claim

Once a PDA development approval is issued, or at a later time, (but prior to the provision of the Land Contribution or the commencement of the Works Contribution which constitute the contribution which is the subject of the offset request), an applicant may submit a provisional offset claim for MEDQ assessment and decision.

The MEDQ will require the applicant to provide all relevant information that will assist in deciding a provisional offset claim. The applicant must comply with any request for further information from the MEDQ.

A provisional offset claim is required only where an applicant seeks to vary the scope, timing or cost of infrastructure land and works listed in Section 5.1.

In assessing the provisional offset claim the MEDQ shall:

- i. determine whether an offset will be given for the contribution against the Development Charges
- ii. for a Works Contribution, determine the Provisional Offset Value on the basis of the applicant's estimated cost of works pursuant to section 3.2
- iii. for a Land Contribution, determine the Provisional Offset Value to be offset against Development Charges with reference to the process outlined in section 3.3

Having decided the request, the MEDQ must give a notice to the applicant stating the following:

- i. whether a provisional offset will be given for the contribution
- ii. if a provisional offset is to be given:
 - a. the Provisional Offset Value for the Works Contribution, and/or
 - b. the Provisional Offset Value for the Land Contribution

A Provisional Offset Value has a currency period of 2 years from the date of decision.

The Provisional Infrastructure Offset Value provides an indicative assessment of offset value based on variations to infrastructure scope, timing or cost, and is not able to be applied against Development Charges until this value is confirmed, and adjusted as necessary, through the final offset claim process in section 3.5.

3.5 Final offset claim

An applicant may submit a final offset claim for MEDQ assessment and decision at the following times:

- i. for a Works Contribution:
 - a. for a completed Works Contribution, when the works have been accepted as on-maintenance, or
 - b. for a partially completed Works Contribution, when the MEDQ has agreed to accept an uncompleted works bond for the contribution. However, an offset for a partially completed Works Contribution can only be for the value of the completed portion and not the uncompleted portion of the works.
- ii. for a Land Contribution, when the Infrastructure Contribution has been provided in accordance with the relevant PDA development approval.

In assessing the final offset claim the MEDQ shall:

- i. determine whether an offset will be given for the contribution against the Development Charges
- ii. determine the timing of the offset accrual
- iii. determine the final Offset Value which will be equal to:
 - a. for a Works Contribution, the certified actual costs, consistent with the scope, location and inclusions of the identified DCOP item or an approved Provisional Offset Value;
 - b. for a Land Contribution, the Final Offset Value for the land determined in accordance with Section 3.3.
- iv. determine the amount of the Final Offset Value that is applicable to the Development Charges (the Infrastructure Offset), and if the Works and Land Contributions exceed the Development Charges the amount of any Unused Infrastructure Offset.

Having decided the request, the MEDQ must give a notice to the applicant stating the following:

- i. whether a final offset will be given for the contribution
- ii. if a final offset is to be given:
 - a. the timing of the offset accrual,
 - b. the Final Offset Value for the Works Contribution,
 - c. the Final Offset Value for the Land Contribution, or
- iii. Where an applicant's offset claim has not been accepted, the MEDQ will provide written notice of reasons for rejecting the applicant's request.

3.6 Using an offset

The offset cannot exceed the Development Charge for that development approval.

Where the offset available for a development approval (the original development approval) exceeds the Development Charges for that approval, the excess amount (the Unused Infrastructure Offset) may be applied to reduce a Development Charge for any future PDA development approval provided the future development approval:

- is for land located in the Fitzgibbon PDA; and
- is issued to the applicant for the original development approval.

However, this clause 3.6 does not apply where a refund for the Unused Infrastructure Offset has been given in accordance with clause 3.7 below.

3.7 Infrastructure Refunds

A refund (Infrastructure Refund) may apply where a notice has been issued by the MEDQ stating the amount of an Unused Infrastructure Offset in accordance with section 3.5 and the stated amount (or part thereof) remains unused.

An applicant may submit a request to the MEDQ for a refund. The request must contain the following information for each Infrastructure Contribution the subject of the proposed refund:

- i. that the Infrastructure Contribution has been lawfully completed
- ii. that the applicant seeks a refund of the Unused Infrastructure Offset, and
- iii. the value of the Unused Infrastructure Offset.

The MEDQ may require the applicant to provide any further information that will assist in deciding a request for a refund.

The applicant must comply with any request for further information from the MEDQ.

3.8 Entitlement to an Infrastructure Refund

Any refund is to accord with the following terms, unless otherwise agreed with the MEDQ:

- i. the Infrastructure Refund is not to exceed the value of the Unused Infrastructure Offset
- ii. the Infrastructure Refund will only be made available when sufficient Development Charges have been collected by the MEDQ for the infrastructure item which is the subject of the Infrastructure Refund, and
- iii. the Infrastructure Refund may be made over a series of payments.

3.9 Determining a request for an Infrastructure Refund

Having decided the request, the MEDQ must give a notice to the applicant stating the following:

- i. whether an Infrastructure Refund is available or not
- ii. if an Infrastructure Refund is not available, the reason, or
- iii. if an Infrastructure Refund is available, the value of the refund, including indexation and details of the timing for payment of the refund.

4 Indexation

Base Development Charge Rates, Development Charges, Trunk Infrastructure estimated costs and Unused Infrastructure Offsets will be subject to indexation. Indexation occurs on 1 July each year. Indexation is to be calculated in accordance with the below indexation rates.

Values should be indexed from the base rate for every period up to the current FY.

Table 5: Indexation rates

FY	Indexation Rate
FY23/24	1.042905
FY24/25	1.062911
FY25/26	1.064382

The indexation rate in Table 5 is the 3-yearly PPI average variance from March of the current calendar year to March of the previous calendar year.

The 3-yearly PPI average has the meaning given to it by the *Planning Act 2016*. A PPI calculation spreadsheet is available on the Queensland Government's planning website.

5 Trunk Infrastructure plans

5.1 Schedules of works

The schedule of works⁸ outlines trunk land and works, which are required to service the projected development within the PDA.

Table 6: Schedule of Trunk Infrastructure works – Transport – Base Rate Costs as at July 2022 (FY2022/23)

DCOP ID	Map number	Infrastructure type	Infrastructure description	Estimated timing	Land cost	Total works cost ⁱ	Estimated cost ⁱⁱ
RD01	2	Signalised intersection.	Dorville Road/Zillmere Road intersection upgrade – signalised intersection works/channelised right turn lane.	Completed	N/A	\$388,899	\$388,899
RD02	2	Intersection.	Beams Road/Dorville Road intersection upgrade – roundabout upgrade/channelised left turn lane.	2023	N/A	\$382,964	\$382,964
RD03	2	Signalised intersection.	Beams Road/Balcara Avenue/CUV Access intersection upgrade – signalised intersection works/channelised right turn lanes/channelised left turn lanes/Carseldine train station access widening.	Completed	N/A	\$862,394	\$862,394
RD04	2	Main access road	Carseldine Urban Village access road	Completed	N/A	\$2,055,502	\$2,055,502
RD05	2	Cycleway	Carseldine Urban Village main access road cycleway – marked cycle lanes.	Completed	N/A	\$121,899	\$121,899

Notes:

ⁱ – The total works cost is the sum of the following: construction cost, construction on costs and construction contingency.

[>] 2% of 15% construction on costs is allocated to EDQ strategic infrastructure planning costs.

ⁱⁱ – The estimated cost is the sum of the following: land cost and total works cost. This is expressed in current cost terms as at the base date (FY 2022/23).

⁸ The Schedule of Works may be updated from time to time as information regarding infrastructure upgrades which are required to service the PDA is reviewed and/or becomes available.

Table 7: Schedule of Trunk Infrastructure works – Parks and community facilities – Base Rate Costs as at July 2022 (FY2022/23)

DCOP ID	Map number	Infrastructure type	Infrastructure description	Estimated timing	Land cost	Total works cost ⁱ	Estimated cost ⁱⁱ
P01	2	Sport and Recreation Park (43,950m ²)	Sport and Recreation park - embellishment including; - Outdoor fitness node, playground, public amenities, changerooms, landscaping, seating and path connection.	Completed	N/A	\$11,673,750	\$11,673,750

Notes:

ⁱ – The total works cost is the sum of the following: construction cost, construction on costs and construction contingency.

➤ 2% of 15% construction on costs is allocated to EDQ strategic infrastructure planning costs.

ⁱⁱ – The estimated cost is the sum of the following: land cost and total works cost. This is expressed in current cost terms as at the base date (FY 2022/23).

6 Definitions

Unless otherwise expressly stated, a term used in this DCOP has the meaning given to it by:

- i. Table 8 of this DCOP
- ii. if not defined in this DCOP, the Act
- iii. if not defined in the Act, the Fitzgibbon PDA Development Scheme
- iv. if not defined in any of the above documents, the *Planning Act 2016*, or the *South-East Queensland Water (Distribution and Retail Restructuring Act) 2009*.

Table 8: Defined terms

Column 1 Term	Column 2 Definition
Act	means the <i>Economic Development Act 2012</i> .
Applicant	means an individual or entity who submits a development application to the MEDQ or their delegate, such as EDQ.
Base Development Charge Rate	means the rate, for each use type, as outlined in Tables 2 and 3.
Credit	means the monetary amount used in the calculation of an infrastructure charge, which is determined in accordance with section 2.4.
Development Charge	means the monetary amount of the charge for development in the PDA or PDA-associated development calculated in accordance with section 2.
EDQ	means Economic Development Queensland, the Queensland Government's land use planning and property development agency, operating under the <i>Economic Development Act 2012</i> , and often acts as the delegate of the MEDQ.
Existing Lawful Use	means an existing use which is lawful and already taking place on premises.
Final Offset Value	means the value of an offset issued by notice from MEDQ to an applicant in accordance with sections 3.5.
Infrastructure Contribution	means a Land Contribution or Works Contribution.
Infrastructure Offset	means an offset for an Infrastructure Contribution referred to in section 3.
Infrastructure Refund	means a refund for an Infrastructure Contribution referred to in section 3.
Land Contribution	means an Infrastructure Contribution that is land referred to in section 3.4.
MEDQ	means the Minister for Economic Development Queensland. The MEDQ holds powers under the Act to assess and decide PDA development applications, which may be delegated to entities such as local governments or agencies. Economic Development Queensland (EDQ), operating under the Act, often acts as MEDQ's delegate. In this document, MEDQ refers to both the Minister and EDQ.
Management Lot	means a lot that is: intended for a use or purpose that will not result in additional impacts on infrastructure networks for example, an easement lot; or intended for further subdivision.
Previous Lawful Use	means a previous use which was lawful at the time it was carried out and is no longer taking place on premises.
Producer Price Index or PPI	means the producer price index for construction 6427.0 (ABS PPI) index number 3101 – Road and Bridge construction index for Queensland published by the Australian Bureau of Statistics. If this index ceases to be published – another similar index.
Provisional Offset Value	means the offset value for an Infrastructure Contribution stated in a notice from MEDQ to an applicant in accordance with section 3.4.
Trunk Infrastructure	means infrastructure which the MEDQ has identified in section 5 or other infrastructure the MEDQ allocates as trunk.
Unused Infrastructure Offset	means an Infrastructure Offset, or the portion of an Infrastructure Offset, that has not been used to offset Development Charges
Works Contribution	means an Infrastructure Contribution which is works.
Works Offset Value	means the offset value for a Works Contribution determined by the MEDQ in accordance with the process in section 3.

Valuer-General's valuation	land valuations for all rateable properties provided by the Valuer-General in accordance with the <i>Land Valuation Act 2010</i> .
