Summary

In accordance with section 10 of the *Economic Development Act 2012*, the Minister for Economic Development Queensland (MEDQ) may fix charges and other terms for the provision of infrastructure in a priority development area (PDA) and do anything necessary or convenient to be done in the performance of its functions, or exercise of its powers, under the Act. In addition, under section 115 of the *Economic Development Act 2012*, MEDQ may make and levy a special rate or charge.

The aim of the Infrastructure Funding Framework (IFF) is to establish a funding framework that:

- encourages development
- maintains affordability for the end consumer, community, State and Council
- ensures new development in the PDAs fairly contributes towards the cost of providing the infrastructure required to service the PDAs, and
- provides landowners with certainty about future infrastructure charges.

Appendix 1 identifies the infrastructure charging framework and timing for payment for each PDA.

Appendices 2 and 3 set out the infrastructure charging framework for the greenfield PDAs of Yarrabilba and Caloundra South.

Appendix 4 sets out the interim infrastructure charging framework, including charges, offsets, refunds and infrastructure mapping for the Waraba PDA.

Appendix 5 outlines the process for deferral of infrastructure charges for not-for-profit or charitable organisations.

Appendix 6 describes how charges are indexed.

Appendix 7 identifies when and how infrastructure charges apply to interim uses. The IFF should be read in conjunction with:

- the interim land use plan or relevant development instrument and, in particular, the infrastructure plan for the PDA
- the Infrastructure Funding Framework, Crediting and Offset Arrangements (IFFCOA) for greenfield PDAs only
- any applicable Infrastructure Charges and Offset Plan (ICOP) for the PDA
- any applicable Development Charges and Offset Plan (DCOP) for the PDA¹.

¹ Where a DCOP is in effect for a PDA, the DCOP prevails over the IFF and IFFCOA where they differ.

Definitions

Term	Definition
Applicable charging document	for all other references within this document, the local government's adopted infrastructure charges resolution as amended or replaced from time to time.
Applicant	is an individual or entity who submits a PDA development application to MEDQ or their delegate
GFA	is defined as per the relevant development instrument.
Land uses	are defined as per the relevant development instrument.
Large dwelling or large sales office	has a GFA of greater than 100 m ² .
Management Lot	means a lot that is: <ol style="list-style-type: none"> i. intended for a use or purpose that will not result in additional impacts on infrastructure networks for example, an easement lot; or ii. intended for further subdivision.
Medium dwelling or medium sales office	has a GFA of between 60 m ² to 100 m ² .
MEDQ	Is defined in the <i>Economic Development Act 2012</i>
Part A Charge (Waraba PDA)	Infrastructure charges associated with Part A Infrastructure
Part A Infrastructure (Waraba PDA)	Network infrastructure and activities including: Catalyst (low interest loan) costs, land for state government community facilities, implementation works and activities
Part B Charge (Waraba PDA)	Infrastructure charges associated with Part B Infrastructure
Part B Infrastructure (Waraba PDA)	Network infrastructure and activities including: Municipal and sub-regional transport (road, pathway, passenger transport), stormwater, open space, land for local government community facilities, water supply, wastewater infrastructure and services.
Small dwelling or small sales office	has a gross floor area (GFA) of less than 60 m ² .
TBD	denotes a charge rate or unit that is to be determined by MEDQ at the time of assessment.

Unless otherwise expressly stated, a term used in this IFF has the meaning given to it by:

- I. the above *Definitions* section of this IFF
- II. if not defined in this IFF, the *Economic Development Act 2012* (ED Act)
- III. if not defined in the ED Act, the relevant development instrument or relevant local government's applicable charging document
- IV. if not defined in any of the above documents, the *Planning Act 2016*, or the *South-East Queensland Water (Distribution and Retail Restructuring Act) 2009*
- V. the ordinary meaning where that term is not otherwise defined.

In the event of any inconsistency, the meaning assigned to the term in a document higher on the above list prevails, to the extent of any inconsistency.

A reference in this IFF to any Act includes any regulation made under it, and where amended or replaced, if the context permits, means the amended or replacement Act.

A reference in this IFF to a specific document or standard, means the latest version of the document or standard, unless expressly stated otherwise.

Other PDAs	<ul style="list-style-type: none"> • Provisions within the relevant land use plan, DCOP, or ICOP that applies to the PDA • Where none of the above apply, the relevant local government and distributor retailer's applicable charging document/s. 	Infrastructure Funding Framework Crediting and Offset Arrangement, unless a relevant DCOP (or in the case of the Queen's Wharf Brisbane PDA, the ICOP) provides to the contrary

For PDAs where charges are based on the relevant local government and/or distributor retailer document/s, the applicant is required to submit to MEDQ, written advice from the relevant local government and/or distributor retailer of the infrastructure charges, credits and offsets as per the applicable charging document. MEDQ reserves the right to accept, amend or reject the advice provided partially or wholly before confirming the infrastructure charges payable.

Timing for payment of infrastructure charges

Unless a relevant DCOP, ICOP, or development approval condition provides to the contrary, infrastructure charges are payable at the following times:

- i. If the charge applies for development that is reconfiguring a lot, when MEDQ approves a plan for the reconfiguration.
- ii. If the charge applies for development that is a material change of use, prior to the earlier of:
 - a. when MEDQ approves a building format plan; or
 - b. when the change happens; or
 - c. when the certificate of classification or final inspection certificate is issued for a building or structure.

Appendix 2 – Infrastructure charging framework for Yarrabilba PDA

Payment of infrastructure charges

Infrastructure charges are payable for the following types of development:

a. Reconfiguring a lot

Table 1 outlines the Base Charge Rates (FY 2026/27) for reconfiguring a lot.

b. Material change of use

Table 2 outlines the Base Charge Rates (FY 2026/27) for a material change of use.

Determination of applicable credits and offsets

MEDQ will determine any applicable credits and offsets. For the Yarrabilba PDA, the IFFCOA applies and applicable credit and offsets will be determined in accordance with the IFFCOA.

Payment of sub-regional and value capture charges

For signatories to the Yarrabilba PDA Sub-Regional Infrastructure Agreement, sub-regional charges and value capture charges are to be paid directly to Logan City Council following receipt of an invoice from Council. Signatories should not make sub-regional charges or value capture charges payments to MEDQ.

Development exempt from payment of infrastructure charges

Infrastructure charges do not apply to development undertaken by the State, or another entity representing the State, for the following purposes:

- education
- emergency services
- health care services
- social housing.

MEDQ may exempt infrastructure charges deemed payable for not-for-profit or charitable organisations to assist with the delivery of these facilities within the PDA. Refer to Appendix 5 for the eligibility criteria and process for exemption of infrastructure charges.

Table 2 Yarrabilba – Base Charge Rates (FY 2026/27) – Material change of use (cont)

Appendix 3 – Infrastructure charging framework for Caloundra South PDA

Payment of infrastructure charges

Infrastructure charges are payable for the following types of development:

- a. Reconfiguring a lot

Table 3 outlines the Base Charge Rates (FY 2026/27) for reconfiguring a lot.

- b. Material change of use

Table 4 outlines the Base Charge Rates (FY 2026/27) for a material change of use.

Determination of applicable credits and offsets

MEDQ will determine any applicable credits and offsets. For the Caloundra South PDA, the IFFCOA applies and applicable credit and offsets will be determined in accordance with the IFFCOA.

Development exempt from payment of infrastructure charges

Infrastructure charges do not apply to development undertaken by the State, or another entity representing the State, for the following purposes:

- education
- emergency services
- health care services
- social housing.

MEDQ may exempt infrastructure charges deemed payable for not-for-profit or charitable organisations to assist with the delivery of these facilities within the PDA. Refer to Appendix 5 for the eligibility criteria and process for exemption of infrastructure charges.

Appendix 4 – Infrastructure Charging Framework for Waraba PDA

Until a DCOP is in effect for the Waraba PDA, the IFF sets infrastructure charges for the PDA and outlines the relevant policy related to infrastructure charges including how to apply credits, offsets and indexation.

The IFF includes infrastructure charges for the Catalyst charge, State charge, and Implementation charge categories.

Infrastructure requirements for other charge categories (Municipal, Sub-regional, Public transport) will be determined on a site by site basis, at the development assessment stage.

Relevant infrastructure charge categories

The following charge categories are relevant to development in the Waraba PDA for the period of the Interim Land Use Plan (ILUP):

- a) Municipal charge – covers the trunk infrastructure typically within and providing service only to the PDA and includes infrastructure such as trunk roads, sewer, water supply, serviced land for municipal community facilities, parks and open space.
- b) Sub-regional charge – provides a contribution towards the sub-regional roads, parks, sewer and water supply infrastructure required to service the PDA and provide necessary external connections to the wider infrastructure networks.
- c) Catalyst charge – a non-offsetable charge that is quarantined to facilitate the early construction of catalyst infrastructure for the PDA. This infrastructure will enable the early and more efficient delivery of development within the PDA. Where Queensland State Government loans are used to fund this infrastructure, they will be required to be repaid over a period of time. If and when this is considered no longer necessary, the value of this charge will be consolidated into and form part of the municipal charge.
- d) Public transport charge – a non-offsetable charge that is quarantined to facilitate the early delivery of public transport services for the PDA.
- e) State charge – covers the provision of serviced land for State community facilities.
- f) Implementation charge – covers economic development, employment, community development, ecological sustainability and innovation strategies and programs delivered to support development in the PDA. Refer to PDA Practice Note 15. Implementation Works in Greenfield PDAs for further information.

Calculation of infrastructure charges

For the calculation of infrastructure charges for development in the Waraba PDA under the ILUP and prior to adoption of a DCOP, the charge rates (per Demand Unit) identified in Table 5 below will apply.

Part A – Catalyst, State and Implementation Charges

At the time of declaration of the Waraba PDA, MEDQ has a reasonable level of infrastructure planning and costing information to establish interim charges for the Catalyst, State and Implementation charge categories (**Part A Charges**).

For development comprising Reconfiguring a lot and Material Change of Use for residential uses (Dwelling house, Dual occupancy, Caretakers' accommodation and Multiple dwelling), the Part A Charges in Table 5 for the Catalyst, State and Implementation charge categories will apply.

The Part A Charges do not apply to non-residential development.

Part B – Municipal, Sub-regional, Public Passenger Transport Charges

At the time of declaration of the Waraba PDA, significant uncertainty remains regarding the infrastructure planning, costing and funding arrangements related to the municipal, sub-regional and public transport charge categories (**Part B Charges**). Table 5 below identifies that these charges are to be determined (TBD) through the preparation of a DCOP for the Waraba PDA.

Infrastructure requirements for these categories will be determined on a site by site basis, at the development assessment stage.

Information to be provided by Applicant

For all categories of infrastructure, applicants will need to demonstrate that their developments will be appropriately serviced by relevant infrastructure. Further, applicants will be required to demonstrate what impact their development will have on existing or proposed infrastructure, and what measures they propose to take to address that impact.

Accordingly, when assessing development applications during the ILUP period and before issuing a development permit for Reconfiguring a Lot or Material Change of Use of Premises, the applicant must:

1. Demonstrate to the satisfaction of MEDQ, that the development will be serviced by relevant infrastructure and services including municipal, sub-regional, State and public transport.
2. Provide details of the impact the development will have on existing or proposed infrastructure and services including municipal, sub-regional, State and public transport, and how the applicant proposes that impact be managed
3. Provide details of the measures they propose to address any impact, for example:
 - a. Through provision of works,
 - b. A financial contribution
 - c. Entering into an infrastructure agreement

This may result in the applicant being required to undertake works or provide a financial contribution in addition to charges.

Where relevant, conditions will be imposed through the development assessment process to achieve infrastructure outcomes. Alternatively, an infrastructure agreement may be utilised.

Determination of applicable credits and offsets

For the Waraba PDA, infrastructure charges credits, offsets and refunds for development proposed under the ILUP, may be determined by MEDQ or negotiated through an infrastructure agreement in consultation with the relevant infrastructure providers.

Offsets and refunds for trunk land

- For trunk land that is within the Waraba PDA, to determine the value of a Land Contribution, MEDQ will attribute the Valuer-General's annual valuations (rate per m² basis) (in accordance with the Land Valuation Act 2010) which is current at the date the PDA was declared.
- The Valuer-General's annual land valuations will be used in circumstances where:
 - the lot affected by the Land Contribution requirement is vacant or under redevelopment, or
 - if the identified site has improvements on the land, the improvements are deemed unlikely to be adversely affected by the infrastructure.
 - If the delivery of land is likely to affect existing improvements, a market valuation will be undertaken for the site which may result in a different rate compared to the Valuer-General's annual valuation.
 - Where additional State community facilities are required that are not mapped (e.g. for education purposes), any funding forming part of a commercial agreement is not offsetable by the developer.
- Trunk land valuations are subject to indexation from the date of valuation, using methodology consistent with the charge rate indexation in Appendix 6

Development exempt from payment of infrastructure charges

Infrastructure charges do not apply to development undertaken by the State, or another entity representing the State, for the following purposes:

- education
- emergency services
- health care services
- social housing.

MEDQ may exempt infrastructure charges deemed payable for not-for-profit or charitable organisations to assist with the delivery of these facilities within the PDA. Refer to Appendix 5 for the eligibility criteria and process for exemption of infrastructure charge

Development	Unit	Charges (per unit) Total charges (per unit)								
		Interim local charge to be determined				Interim Other Charges to be determined				
		(Part B Charge) Municipal charge	(Part B Charge) Sub-regional charge	(Part A Charge) Catalyst charge (not offsetable)	Total Interim Local Charge (Per demand unit)	(Part B Charge) Public Transport Charge	(Part A Charge) State Charge	(Part A Charge) Implementation Charge	Total Interim Other Charge (Per demand unit)	Total Interim Charge (Per demand unit)

Other Uses	TBD	TBD	TBD	N/A	TBD	N/A	N/A	N/A	TBD	TBD

Table 5 Waraba – Base Charge Rates (FY 2026/27) – Reconfiguring a Lot and Material change of use

Notes:

1. Where TBD (to be determined) is noted, these charges are to be determined through the:
 - a. preparation of a DCOP for the Waraba PDA, or
 - b. execution of an Infrastructure Agreement
2. Where MEDQ transitions an Infrastructure Agreement executed prior to the PDA's declaration with Moreton Bay City Council (under the Planning Act 2016) and/or Unitywater (under the South-East Queensland Water (Distribution and Retail Restructuring) Act 2009) to become a PDA IA, MEDQ will honour and adopt the agreed trunk infrastructure and financial contributions. The transitioned PDA IA can be relied upon to support PDA development applications related to land that is subject to the executed IA.
 - Where a PDA IA is to be executed, MEDQ will consider the impact of IFF charges on development feasibility prior to applying charges established under the IFF.
 - Proponents will need to demonstrate the impact of IFF charges on development feasibility by submitting suitable information including comparison of inclusion/exclusion of the IFF charges to MEDQ. Where required, appropriate confidentiality arrangements will be formed.

Interim Infrastructure Maps

As stated in the Waraba Priority Development Area Interim Land Use Plan - Investigation Area Precinct, Precinct Intent, urban development is not envisaged to occur within the Investigation Precinct while the ILUP is in effect. Further detailed land use and infrastructure planning is required to resolve a broad range of outstanding matters involving State interests, infrastructure network requirements, funding arrangements and community engagement. Further planning will be progressed as part of the preparation of the PDA Development Scheme and Development Charges and Offset Plan.

The Interim Infrastructure Maps identify indicative infrastructure requirements related to the Waraba PDA. The size, quantum, and location of this infrastructure on the mapping will be subject to:

- further assessment of infrastructure requirements through the development assessment process, and
- refinement through detailed network planning investigations undertaken during the preparation of the PDA development scheme and supporting DCOP.

The networks identified in the Interim Infrastructure Maps are indicative, and do not include a detailed assessment of infrastructure capacity and function. Infrastructure identified in the Interim Infrastructure Maps is not automatically entitled to an offset under relevant MEDQ policy instruments and is subject to further assessment of capacity and function.

1. Interim map – water supply network (municipal)
2. Interim map – wastewater network (municipal)
3. Interim map – transport network (municipal)
4. Interim map – parks and stormwater network (municipal)

Appendix 5 – Exemption of infrastructure charges

Not-for-profit or charitable organisations

On application, MEDQ may exempt infrastructure charges deemed payable for not-for-profit or charitable organisations to assist with the delivery of these facilities within the PDA.

The exemption for not-for-profit or charitable organisations applies in the following PDAs only:

- Northshore Hamilton
- Yarrabilba
- Caloundra South
- Waraba.

An exemption of 100% of infrastructure charges (excluding sub-regional and value capture charge types) can be approved to a maximum of \$150,000 per application. The exemption is available to organisations and groups that meet the following criteria:

- There is no profit or gain by individual members of the group.
- The organisation's constitution or governing documents prevent it from distributing profits or assets for the benefit of particular persons, both while it is operating and on winding up.
- Profits can still be incurred but are used to carry out the purpose of the organisation or group.
- Make a vital contribution to the wider local government area, through the provision of community programs and services.
- Is incorporated under the Associations Incorporation Act 1981 (Queensland) or registered under the Collections Act 1966 or registered as a non-profit organisation or charitable group by the Australian Taxation Office.
- The application is made at conclusion of the decision stage.
- The applicant is the owner or approved user (with owner consent) of the premises that are the subject of the application.

MEDQ may consider, by exception, an application for exemption, where there is a primary community benefit and where a strict application of the infrastructure charges could cause hardship and reduce valuable services to the community. This consideration will include an assessment of community need and the financial capacity of the organisation or association through analysis of financial records and a report to MEDQ.

If MEDQ determines that an organisation meets the eligibility requirements, MEDQ will provide a notice granting the exemption to the applicant.

Appendix 6 – Indexation and review of infrastructure charges and land values

Base Charge Rates are subject to indexation. Indexation occurs on 1 July each year. Indexation is to be calculated in accordance with the below indexation rates.

FY	Municipal Charge	Implementation Charge	State Charge	Sub-Regional Charge	Value Capture Charge
FY23/24		1.052770		1.03000	
FY24/25		1.067934		1.03000	
FY25/26		1.058864		1.03000	
FY26/27		1.031352		1.03000	

Table 5: Indexation rates for Yarrabilba

FY	All Charges
FY23/24	1.052770
FY24/25	1.067934
FY25/26	1.058864
FY26/27	1.031352

Table 6: Indexation rates for all other PDAs

Appendix 7 – Interim use charges conditions

Interim use infrastructure charges

Where a PDA development approval include a use, which is deemed to be an 'interim use', infrastructure charges will be applied in accordance with the following principles:

- 1) where the approval is for an interim use that has a duration of less than six years, charges will not be levied
- 2) where the approval is for an interim use that has a duration of more than six years, charges are applicable in accordance with the relevant charges document, and
- 3) where the approval is an extension of an interim use duration period and the total duration of the use is more than six years, charges are applicable in accordance with the relevant charges document.
