Preamble

The 2026 – 2027 Development Assessment Fees and Charges schedule (the Fee Schedule) is effective from 1 July 2026 and supersedes all previous Economic Development Queensland (EDQ) fee schedules.

The Fee Schedule has been made pursuant to the provisions of Section 129 of the *Economic Development Act 2012* and the Queensland Treasury Principles for Fees and Charges (October 2021) and reflect the costs including labour, operating and indirect costs associated with providing the service.

The Fee Schedule details the assessment fees within Priority Development Areas (PDAs) where EDQ is the assessment manager. For PDAs where the development assessment functions have been delegated by the Minister for Economic Development Queensland (MEDQ) to a local government, refer to the relevant Council’s webpage for the applicable assessment fee.

Part A fees

Part A fees are those charges payable to EDQ for various applications and requests. These fees seek to recover, in part or full, the costs incurred by EDQ for processing and considering PDA applications, including:

- material change of use, reconfiguring a lot, operational work and building work
- compliance assessment against a PDA development condition
- sealing plans of subdivision, including endorsement of community title schemes
- other applications such as but not limited to changing a development application, changing a development approval, extending a currency period, road closure applications, and interfering with vegetation under a bylaw.

In some instances, the assessment of an application may require input from specialist consultants (such as acoustic engineer, economist, architect etc). In these instances, an additional assessment fee will be charged to cover the cost of the consultant/s. EDQ will advise where consultant input is required and the amount of the additional fee.

Part B fees

EDQ can set Part B fees to recover in part or full, the costs incurred for various plan making activities. These charges are currently set at nil. Therefore, the total fees payable to EDQ for PDA development are Part A fees only.

Fee calculation

When calculating the fee, it is the sum of all components of the application (rounded to the nearest dollar), as shown in example below. The base fee applies to every component.

Reconfiguration of a Lot	+	Plan of Development	+	Material Change of Use (Multiple Dwelling)	=	Total Fee
300 lots		298 lots		30 dwelling units		

For applications that include multiple land uses, the total fee is calculated as the sum of the fees applicable to each land use. The base fee applies to every land use calculation.

The principal use is the land use with the highest applicable fee and is charged at 100% of the applicable fee.

All secondary uses are charged at 60% of the applicable fee, including any prescribed minimum fee.

Multiple Dwelling	+	Shop	+	Indoor Sport and Recreation	=	Total Fee
250 dwelling units		200m² GFA (60%)		500m² GFA (60%)		

Confirmation of the application fee

The assessment fee is to be confirmed by EDQ prior to payment.

Discounts

A fee of 50% of the normal prescribed fee is payable for applications in the following instances:

1. Where proof of status as a bona fide charitable or not-for-profit organisation is provided; or
2. Where the application is for State or Local Government Community Facilities; or
3. Where EDQ accepts the applicant is a bona fide charitable or community organisation; or
4. Where the development is located within a Rural or Regional Priority Development Area (PDA) outside South East Queensland.

For points 1-3, the discount does not apply to private clubs, other than Senior Citizens Clubs, or to applications that do not fulfil a significant community role or are not considered 'not-for-profit' developments (such as commercial uses, reconfigurations, or the like).

Refunds

Where an application is withdrawn, EDQ retains the full cost of processing the application and will consider refunds or a credit as appropriate.

Fee reduction

Any request for reduction of fees is to be submitted in writing with appropriate justification, for consideration by EDQ. Previous EDQ fee determinations are not considered appropriate justification for reducing current EDQ fees and charges. In all instances the applicable minimum fee will apply.

Fees and Charges Schedule - Part A fees

Please note: Base fee represents the fee applicable to the first unit of measurement (e.g. lot, unit, m², or ha).

Where specialist consultants are engaged to assess technical reports, additional fees will apply. Applicants will be provided a scope and estimate prior to EDQ retaining external advice.
